Clearly Financial Markets
Professional Training

Theresa Sagayam, ACA BA

I qualified as a Chartered Accountant with PriceWaterhouseCoopers (London) in 1994 within the International and Executive Personal Tax Division.

After a successful period in professional accountancy tuition, I was head hunted and recruited into a business development/sales role in Ingenious (a specialist investment company), helping to raise funding for film production partnerships and managing client relationships.

I subsequently returned to my real passion, training, embarking on a City career, specialising in Financial Markets training, in London and in Edinburgh.

Over the last 25 years, I have delivered bespoke and exam courses to delegates from leading investment banks and asset management houses including HSBC, Goldman Sachs, Investec, Deutsche Bank, Merrill Lynch, UBS, Citigroup, RBC, ICBC Standard Bank, Schroders, Henderson, Bank of New York Mellon, M&G, Walter Scott and Baillie Gifford.

In 2005, I co-founded Clearly Financial Markets Ltd. alongside Steve Nightingale, providing bespoke, in-house technical and exam training to clients from both the sell-side and buy-side.

My specialist areas of delivery span across investment operations, private banking, investment management, various product courses, FCA regulations, tax planning and financial and investment accounting.

I have an enthusiasm and commitment to training which is anchored in empowerment by education. Additionally, I have been blessed with an international lifestyle as a daughter of a Malaysian diplomat, which has expanded my horizon to different cultures and social backgrounds. I have lived in a number of countries around the globe including France, Malaysia, Vietnam, USA, China, Singapore and the UK.
